

### Design und Function

BALLS wall hooks, made in solid Ash, are an attractive storage solution. The purist design is at home almost anywhere. BALLS is available in two formats to allow for a variety of individual solutions – a set of three, made up of differing diameters, as well as a set of four, in the same diameter.

Thanks to their classical spherical shape, these cloakroom hooks offer a safe resting place for a variety of clothing, towels or accessories, such as hats and scarves.

BALLS can be styled as an attractive wall-mounted cloakroom in an entrance hall, as a holder for hand towels in the bathroom or hung in the kitchen as a functional yet aesthetically pleasing aide.

### Assembly

BALLS is assembled quickly and easily.

Dowelling plugs in the wall, screws in place, attach BALLS

How you position BALLS is just up to you.

### Dimensions

As with all komod products, the design proportions and dimensions have been developed with a fine feel for composition and function, in order to position BALLS in a wide variety of positions and rooms.

4.5 cm diameter, 4 cm depth
