

### Design and Function

Kommod TAKKS vases are made from selected, yet sustainable grown ash wood. Each bowl follows strictly the philosophy of our product language: Simple, Practical and Pleasing. The minimalistic design featured with small and clear edges combines a warm ash tone with a surprisingly fresh elegance. Due to their charming appearance the vases work in several different interior scenes.

TAKKS comes in a set containing two different sizes, which are perfectly aligned in terms of proportions. Each vase comes with a glass in order to keep water reliably.

### Montage

There is no need for assembling. Unpack TAKKS and place it to your favourite place.

### Dimensions

Many prototypes have been developed in order to come to the perfect form.

7 cm diameter, 11,5 cm hight

7 cm diameter, 15 cm hight
